Re : adherence to the Committee of Recommendation

Herewith I,

Ms./Mr.

Country:

Professional/social qualifications:

have the pleasure to sign up for the Committee of Recommendation, made up of public figures in favor of alternative policies to the prohibition of drugs, in order that my recommendation may favorably influence potential nominators, and

to recommend the DPI 2019 Nobel Peace Prize candidates with potential nominators, which are those people qualified by Alfred Nobel to nominate a candidate for the Nobel Peace Prize, and

to underwrite to this end the text below, which the Drugs Peace Institute may forward to potential nominators with my name included in the list of endorsing Committee members:

“We, the members of the Committee of Recommendation, endorse the nomination for the 2019 Nobel Peace Prize of the Huichol People, represented by the Huichol Center for Cultural Survival (Centro Indígena Wixárika, Huejuquilla el Alto, Jalisco, Mexico) in the person of its founder and director Susana Eger Valadez, and of the Cannabis Social Clubs (CSC) represented by Felipe Borrillo, Joseph Baltierrez i Alier and Jaime Prats, founding members of ARSEC (Asociación Ramon Santos de Estudios de Cannabis, Barcelona, Catalonia, Spain). Their activities have effectively contributed to our understanding of the responsible production, distribution and consumption of peyote and marihuana, enhancing the prospects for peace and an end to the war on consumers of mind-altering substances. We are convinced that these drugs pacifists deserve to be considered for the Nobel Peace Prize because of their activities in favor of drugs peace, and we therefore strongly recommend their candidacy for nomination.”
